

Slack Water Correction Figures for Anglesey

The table shows the amount of time before or after low and/or high water **Holyhead** that slack water occurs at the location shown. Slack may only be true for either high water or low water.

Warning. These are estimates. Slack times will vary due to many factors from one day to the next. Make sure you check the tide on site before committing divers to their dive.

	Before	After				
1 Holyhead	00:00					
2 North Stack LW only	00:00					
3 South stack hw	00:30					
4 Abraham's Bosom lw	00:00	03:00				
5 Penrhyn Mawr x	00:00					
6 Missouri. Any time	00:00					
7 Fangs hw	00:00	01:00				
8 Cannon Site hw	00:00	01:00				
9 Trearddur Reef hw	01:30	00:00				
10 Hermine Reef hw	02:30					
11 Hermine Reef lw	02:00					
12 Maen Piscal hw	00:00					
13 Maen Piscal lw	02:00					
14 Pinnacle A hw	00:00					
15 Pinnacle A lw	02:00					
16 Pinnacle B hw	00:00					
17 Pinnacle B lw	01:30					
18 Careg Hen hw	00:00					
19 Careg Hen lw	00:30					
20 Pinnacle C hw	00:00					
21 Pinnacle C lw	00:30					
22 Pinnacle D hw	00:00					
23 Pinnacle D lw	00:30					
24 Rhoscolyn Head hw		02:00				
25 Rhoscolyn Reefs lw		02:00				
26 Rhoscolyn Beacons lw	02:00					
27 Norman Court	00:00	00:00				
It is best to use Holyhead tide tables for these correction figures. Calculating Holyhead tides from Liverpool times does not seem to be as accurate.						
The information for these figures came from Martin Sampson at Anglesey Divers.
